Uses	<ul style="list-style-type: none">• Solvent for cleaning tanks.
Limitations	Intended exclusively for use in solvent cleaning tanks.
Application	Follow manufacturer's instructions.
Disposal	The generation of waste should be avoided or minimized whenever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.
Storage	Store in dry, cool, well-ventilated areas away strong oxidizing agents, food, and drink. Transfer only to approved containers having correct labeling. Keep containers tightly closed when not in use. Protect containers against physical damage. Containers that have been opened must be carefully resealed and kept upright to prevent spillage. Containers are hazardous when empty as they contain product residues. Use appropriate containment to avoid environmental contamination. Ventilate closed areas. Do not take internally. Keep out of reach of children.
Packaging	5 Gallon – Single units - plastic pail container
