

Crown® Pure Heat - CR.PH - September 6, 2024

Description

CROWN® Pure Heat is a top fuel for all K-1 Kerosene burning appliances such as heaters, lamps, refrigerators and stoves. This premium fuel contains less sulfur and aromatics resulting in a fuel with no kerosene odor before, during or after burning. This safer, clear formula burns clean to extend the life of your wick and will limit smoke, soot and emissions.

Prominent Features

- Odorless burning fuel.
- Fuel kerosene heaters and kerosene applications such as lamps, refrigerators, and stoves.
- Less smoke and soot than kerosene.
- Meets or exceeds all K-1 kerosene specifications.

Uses

Fuel for all kerosene appliances including heaters, lanterns and stoves.

Application

Carefully read all cautions and instructions before use. Protect hands with solvent-resistant gloves, and eyes with safety glasses. Open can slowly to relieve pressure. This fuel can cause serious burns if used improperly.

Disposal

The generation of waste should be avoided or minimized whenever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should always comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Storage

Store in dry, cool, well-ventilated areas away from strong oxidizing agents, food and drink. Keep away from heat and ignition sources. Transfer only to approved containers having correct labeling. Keep containers tightly closed when not in use. Protect containers against physical damage. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Containers are hazardous when empty as they contain product residue. Do not cut, drill, weld, braze, solder grind or perform similar operations on or near empty containers. Use appropriate containment to avoid environmental contamination. Ventilate closed areas. Keep out of reach of children.

Packaging

1 Quart – 6 per case – Center neck plastic container
1 Gallon – 4 per case – 'F' style plastic container
